Professional Summary:

Full Stack Developer Ssr with over 3 years of experience in creating scalable and high-quality solutions. Experience in JavaScript, TypeScript, React, Next, Node.js, and cloud technologies. Known for team management skills, agile development, and effective client communication.

Work Experience

Nearpod 2024 – present

- Created scalable backend solutions with Node.js and PHP.
- Implemented and optimized microfrontend architecture using React, Next.js, and Angular
- Coordinated effectively with design and product teams to align on technical requirements.

Darwoft 2024 – present

- Built and optimized backend services with Node.js.
- Worked closely with cross-functional teams to ensure cohesive project delivery.
- Developed frontend side using React and Next.js, to enhance modularity.

StackZone 2022 – 2024

- Managed and prioritized tasks using JIRA and Clickup.
- Conducted thorough code reviews to maintain high-quality standards.
- Created and maintained comprehensive technical documentation.
- Implemented new features and resolved bugs in frontend and backend using JavaScript, TypeScript, React, Node.js, and Express.
- Set up and managed CI/CD pipelines using tools like Jenkins and GitHub Actions.
- Collaborated with cross-functional teams including UI/UX designers, product managers, and other stakeholders.
- Optimized application performance through code optimization, efficient database queries, and caching strategies.
- Mentored junior developers and conducted training sessions on best practices, new technologies, and coding standards.

nubeGo 2021 – 2022

- Integrated cloud services and managed infrastructure using AWS and Azure.
- Designed and implemented microservices architecture.
- Developed RESTful APIs and managed databases (PostgreSQL, MongoDB).
- Built responsive and interactive user interfaces with React.
- Actively participated in Agile ceremonies and employed DevOps practices.
- Implemented unit tests, integration tests, and end-to-end tests using Jest and Cypress.
- Communicated with clients to gather requirements, provide updates, and deliver technical support.
